

## Richard Leu, PhD

*Space Cow LLC*

Richard Leu, PhD, is currently the director of emerging technologies and is a member of the board of directors for The Knudsen Institute, a nonprofit research organization developing solutions with emerging technologies to aid the defense industrial base and small manufacturers during a surge environment. He is also the co-founder and president of Space Cow LLC, a for-profit applied research company working on novel AI, data, and software solutions in the manufacturing space. Dr. Leu's 10+ years of industry experience as a data scientist and technology executive has spanned multiple domains such as aerospace & defense, logistics, manufacturing, and oil & gas and multiple business models such as eCommerce, physical asset management, platform models, and SaaS. Dr. Leu received his BS in Aerospace Engineering, BS in Physics, MS in Statistics, and PhD in Physics from The University of Texas at Austin.
