

Ronald “Ronnie” Hobbs

AFSC Small Business Office

Ronald Hobbs is the Director of Small Business at Air Force Sustainment Center, Tinker AFB, Oklahoma. He leads the Small Business Directorate, which is charged with maximizing small business participation, liaison with the Small Business Administration, industry outreach, source development, and internal and external education on small business matters.

“My goal is to connect your capabilities to AFSC requirements at the speed of relevancy. In order to achieve CSAF Action Order to Accelerate Change or Lose, we must think outside the box to realize the Art of the Possible results expected by our nation’s citizenry”

Ronald began his Federal Service in Jan 2006 at Tinker AFB Oklahoma. He initially started as a Senior Avionics Technician for the 550th Commodities Maintenance Squadron after being Honorably Discharged from the Air Force in Dec 2004. He then transitioned to the Acquisition Career field through the Defense Career Internship Program. During this time, he received Level III Contracting and Level I Program Management Acquisition certifications. As a Contracting Officer and Supervisor he supported multiple contracting organizations to include Supply Chain, Maintenance Support, Contractor Logistics Support, and Propulsion Contracting organizations. Further, prior to his last assignment he served as the Alternative Competition Advocate and Acquisition Support Chief for the Contracting Directorate at Tinker AFB.

Prior to his current position, Ronald was the Chief for the F100, TF33, and T56 Engine Supply Chain Contracting.
