

Travis Goldbach

AWS CMMC GTM Leader

Travis has over 15 years experience as a cybersecurity and compliance professional with demonstrated ability to map key business drivers to ensure client success. He started at AWS in 2021 to help AWS customers and partners accelerate their DFARS, NIST, and CMMC compliance requirements while reducing their level of effort and risk. Prior to AWS Travis was a CMMC Program Leader at a top Managed Security Service Provider (MSSP) where he also led a team of cybersecurity consultants with a focus on helping Aerospace & Defense companies build their cybersecurity programs to meet some of the most stringent compliance requirements.
